Skills:

Technical Skills: Python, SQL, MS office

Soft Skills: Problem Solving, Time Management, Good Communications, Leadership, Qualities, Adaptability, Ability to work in team

Projects:

Project – detection of cyberbullying using machine learning

Brief on project – Cyberbullying, the act of harassing or threatening individuals through digital platforms, has become a pressing issue with the widespread use of social media and online communication tools. Detecting cyberbullying effectively is crucial to protect vulnerable users, especially adolescents, from psychological harm. Machine learning (ML) offers powerful techniques to automatically identify and mitigate such harmful behavior in real-time.
